CUSTOMERS

## Barents Low Volume Road management ENPI CBC Kolarctic

### Expectations

- improve harmonized practices and technologies in Barents road management
  - to improve co-operation between all participating road organizations including private ones
  - to improve personal connections and co-operation between road experts
  - to achieve concrete results for load management in close connection with Roadex
  - the project supports new measures and innovations to be taken to use, like computer controlled tyre pressure
  - commitment of all participants
- > better and homogeneous quality of service level for road users on both sides of the border
- all planned activities will be carried out as well as possible
